PROPOSAL DATE

June 18, 2026

VALID THROUGH

July 31, 2026

YOU RUN THE TRUCKS. THE SITE BRINGS THE WORK.

Silva Star Water Solutions has built a reputation in Austin servicing food trucks and events with reliable grey water disposal. But right now, every job comes from word of mouth, and there is zero web presence. No website means no search visibility, no online booking, and no way for new customers to find you.

This proposal lays out a complete digital platform: a professional website that turns visitors into bookings, a service dashboard that tracks every job, invoice, and dollar owed, and a built-in referral program that rewards the people already sending you business.

02 · WHAT YOU GET

- **A professional one-page website** — custom dark-mode design, mobile-first, built for Austin service businesses. Hero, services, service area, booking CTA, testimonials.
- **Online booking system** — customers request grey water pickup or grease service with date, location, truck count, and event details. Every request hits your dashboard instantly.
- **Service management dashboard** — track every job from scheduled to completed to paid. See today's route, outstanding invoices, repeat customers, revenue trends, fleet status.
- **Invoicing with payment tracking** — create and send invoices, track who has paid and who has not. Stripe integration so customers can pay online. Solves the Square visibility problem.
- **Built-in affiliate/referral program** — food truck operators and friends refer customers, get a commission when the job is completed and paid. Automatic tracking.
- **Click-to-call everywhere** — (512) 967-2787 and danielsilvaatx@gmail.com prominently placed across the site.

THE PARTS THAT COME AS STANDARD.

- Platform console with webmail, newsletter, customer management, reports, and settings.
- Deployed to Vercel with a custom subdomain — your own domain when ready.
- Instant email notification on every new booking request.
- On-page SEO baseline — meta tags, OpenGraph, optimized for "Austin grey water disposal" and related searches.
- 30 days of post-launch support.

FLAT RATES. NO SURPRISES.

The build is a flat one-time fee. The retainer covers maintenance and minor tweaks only — not new modules. New features are scoped and quoted flat-rate before any work begins, so you always know the cost before we start.

ITEM	FREQUENCY	PRICE
Phase 1 · Website + Dashboard Build One-page site, booking system, service dashboard, invoicing, referral program, Stripe integration, 30-day support.	One-time	\$2,000
Phase 2 · Maintenance Retainer Keeps integrations alive, fixes anything that breaks, minor tweaks. Does NOT include new features.	Monthly	\$300/mo 3-mo min · cancel anytime after
New Features (when you want them) Each new module is scoped and quoted flat-rate before any work begins. No surprise invoices.	Per scope	From \$300 quoted before work starts

HOW IT WORKS · ALIGNED INCENTIVES

The \$300 retainer keeps the lights on. Want something new? We scope it together, agree on a flat price, then build it. You know the cost before we start.

TIMELINE & PAYMENT TERMS

\$1,000 deposit due to begin work. Balance of \$1,000 due on launch day. Retainer billed monthly starting on launch date. **Site goes live within 3 weeks** of deposit clearing.

Acceptance. Reply by email or text with *"approved"* to receive the deposit invoice. Silva Star Water Solutions owns the website, the source code, and all customer data — full export available any time.
